

A Better Kitchen. A Better Way.

cardell
CABINETRY®

The Cardell® Cabinetry Difference.

Cardell is an easier way. It's the way to find the vanity you're looking for. With timeless and popular styles, practical features like drawers that don't slam, and a simple ordering process, Cardell is a better way to get the kitchen you want.

Quality

With excellent warranties and proven product strength, you can have confidence that your vanity will stand up to daily life.

Speed

Our process is designed to be swift. Easy selection. Efficient ordering. Shipping in 21 days or less.

Simplicity

We've built a better process. Simple step by step ordering. Ordering tools online and in-store. Choices that are clear. Price ranges that are transparent.

Empowerment

Cardell puts the power of the vanity-buying process back into your hands. We've stripped away the hassle, providing you with the choices, the speed, and the service you should expect from a cabinet company.

CONSTRUCTION

Like you, cabinets live in your home. They experience the daily wear and tear of use and life. To ensure your cabinets are up to the challenge, we've built Cardell cabinets to last. They meet and surpass industry standards and are backed by an impressive warranty.

Wall Cabinet.

Durable construction.

Built to work and last. $\frac{3}{8}$ " thick end panels attached with wood-to-wood glue and staples.

Meets or exceeds KCMA standards.

We have our own testing facilities to make certain our cabinets meet or exceed the standards set by the Kitchen Cabinet Manufacturers Association (KCMA).

Base Cabinet.

Finished look.

With $\frac{3}{8}$ " thick, industrial-grade, engineered wood end panels.

Strong shelves.

Made from $\frac{3}{4}$ " thick engineered wood.

Lifetime limited warranty.

For more information, visit Cardell.com.

FINISHES

Maple Stain

Stain: Natural

Stain: Caramel

Stain: Nutmeg

Stain: Sedona

Stain: Cocoa

Stain: Coffee

Stain: Ebon Smoke

Stain Process

Stain is applied and brush-wiped to desired color. Next, sealer is applied to protect the finish and prevent warping and cracking of the hardwood. Sealer is then sanded to develop a bonding surface for the topcoating process. As a final step, a heat activated topcoat is applied to provide a beautiful and durable furniture finish. Finish availability may vary by door style. Consult with your Cardell® Cabinetry designer.

Maple Stain w/ Glaze

Stain w/ Glaze:
Natural w/ Java Glaze

Stain w/ Glaze:
Caramel w/ Java Glaze

Stain w/ Glaze:
Nutmeg w/ Ebony Glaze

Maple Paint

Paint: Lace

Paint: Linen

Paint: Cobblestone

Paint Process

Our painted finishes consist of several coats of pigmented semi-opaque enamel paint that are allowed to saturate the hardwood, developing richness while allowing some of the natural grain to remain visible. As a final step, a heat activated topcoat is applied to provide a beautiful and durable furniture finish. Finish availability varies by door style. Consult with your Cardell® Cabinetry designer.

FINISHES

Paint w/ Glaze

Paint w/ Glaze:
Lace w/ Tuscan Glaze

Paint w/ Glaze:
Linen w/ Tuscan Glaze

Paint w/ Glaze:
Linen w/ Desert Glaze

Paint w/ Traditional Glaze Process

Several coats of pigmented semi-opaque enamel paint are applied and allowed to saturate the hardwood developing richness while allowing some of the natural grain to remain visible. Next, sealer is applied to protect the finish and prevent warping and cracking of the hardwood. Sealer is then sanded to develop a bonding surface for the glazing and topcoat process. Glaze is applied, face side only, to corner hang-ups and profile recesses depending on door style. As a final step, a heat activated topcoat is applied to provide a beautiful and durable furniture finish. Finish availability varies by door style. Consult with your Cardell® Cabinetry designer.

Cherry Stain

Stain: Cocoa

Stain: Honey

Cherry Stain w/ Glaze

Stain w/ Glaze:
Honey w/ Java Glaze

Stain w/ Traditional Glaze Process

Stain is applied and brush-wiped to desired color. Next, sealer is applied to protect the finish and prevent warping and cracking of the hardwood. Sealer is then sanded to develop a bonding surface for the glazing and topcoat process. Glaze is applied by hand (face side only) to corner hang-ups and profile recesses depending on door style. As a final step, a heat activated topcoat is applied to provide a beautiful and durable furniture finish. Finish availability varies by door style. Consult with your Cardell® Cabinetry designer.
